John Muller, Chair
S.F. Bay Regional Water Board
1515 Clay St., Suite 1400
Oakland, CA 94612

Dear Mr. Muller,

Our Bay is filled with debris. It affects recreation and destroys marine life. It also decreases water quality. The Board has proposed a permit that would allow up to one hundred pieces of trash for every 100 feet in a trash "hot spot". This is utterly inadequate and I'm saddened that we do not care enough about our bay to do better. I would strongly encourage you to support a no-trash policy. I cannot imagine how I would explain anything less to my two kids. I very much doubt if any other major bay centered municipality has such low regard for their bay front. Let's treat our bay as though it was a very special place for small children, for waterfowl, for romantic walks, for edible seafood.

Earnestly,
Matt Cantor of the Berkeley Daily Planet
